JOHN MINOR BOTTS asserts, in a published letter, that the late Virginia Legislature was the "most disloyal, intolerant, and presumptuous body that ever assembled in the Capitol of Virginia towards the loyal men of the State, who (that is the latter) were alone entitled by the constitution, as well as by national law, to shape and control the legislation and destinies of the Commonwealth."

But the President, Mr. BOTTS, says any man is a traitor who is opposed to admitting a State so reconstructed into full fellowship.

WE hear from Washington that all the federal office-holders in the 22d district, (Mr. Moorhead's,) embracing Pittsburgh, are soon to be removed. Will the conservative journals charge that all these offices are held by the editor of the GAZETTE? They are vastly liberal in heaping honors on us just now.

THE *Dispatch* lays down a rule we are not disposed to cavil at—that federal officeholders who criticise the President are fairly subject to removal. Is the Executive the only department of government entitled to respectful treatment from incumbents of offices? How about placemen who abuse Congress?

PRENTICE, in Saturday's Louisville *Journal*, gets off this doubtful paragraph:

"We were at a party in Washington last December, where a majority of the ladies displayed their beautiful persons very liberally indeed. It wasn't a bare majority, but a half bare one."

IT APPEARS SIR MORTON PETO aspires to authorship, and is writing a book on "The Resources and Prospects of the United States." If not made to subserve his own financial schemes, it will be of value.

THE office-holders of Connecticut, to save their bacon, are concerting for an expression of their sympathy with the President.

THERE are rumors of changes soon to be made in the Collectors and Assessors of Federal taxes in Philadelphia.

THE Senate is disposed to reject all nominees in place of persons removed for not endorsing the President's Policy.

THE Freedman's Bureau has assumed the duty of collecting bounty, pay and pensions for colored soldiers.

IT seems to be settled that Congress will adjourn in June.

Fever and Ague Extinguished.

Martyrs to Intermittent Fever, a word with you. The responsibility for your suffering rests upon yourselves. Just as surely as you shake to-day, or will shake to-morrow, Hostetter's celebrated Stomach Bitters will extinguish the disease under which you labor. Had you taken this genial tonic as a preventive, you would have no need of it as a cure, for it renders the system impervious to all miasmatic fevers. But since you neglected the precaution, rid yourselves without delay of the complaint by resorting to the only reliable remedy. Break the chills with Hostetter's Bitters, and they will return no more. This is the experience of thousands, and it will be yours. Quinine is a slow means of relief; it is nauseous to the last degree; it is more dangerous than the malady itself; in many cases it utterly fails. How different is the effect of the bitters. Their curative action is rapid; they are agreeable to the palate; they are not only entirely harmless, but tend inevitably to strengthen the constitution and prolong life; they *never have failed*, and it is confidently assumed that they *never can fail* in any case of Fever and Ague, however inveterate in its character. To be without Hostetter's Bitters in any region infested with intermittent or Remittent Fever is simply to reject safety and court disease.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth Diamond street.

QUESTION OF EXPORTATION OF ARMS INTO MEXICO.

Opinion of the Attorney General.

RECOMMENDATIONS FOR BREVET APPOINTMENTS.

Report of the Examining Board

WASHINGTON, April 24.—In the great letting of mail contracts, about three thousand routes have been concluded. Kentucky, Tennessee, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Dakotah, Tennessee, Kansas, Nevada, and Missouri, are the States embraced in this regular letting, besides which there are over one or two hundred more of miscellaneous routes in New England, New York, Pennsylvania, Maryland, and points near the line, and which are now let under special advertisement. In some of the States the proposals were found considerably in advance of those demanded four years ago. In others offers were made at lower figures, so that as an average the entire results are in favor of the Department.

This is by far the greatest letting ever held in the Department. The competition throughout was spirited, showing the mail service to be in high credit among men of intelligence, enterprise and wealth within the respective States.

Moses F. Odell was yesterday confirmed by the Senate as naval officer at New York.

The President has filled all the appointments in Virginia, for the Internal revenue, with parties who, it is said, have taken the test oath.

The Quarter Master General says he has reports of the interment of nearly one hundred thousand Union officers and soldiers, a large portion of whom it will perhaps be necessary to remove to cemeteries. One million dollars will be required to protect them from desecration, and it is recommended a general system be adopted. Gen. Thomas has issued an order warning the people against plowing under or disturbing the graves of our dead at Atlanta.

It appears from official documents that in December last Senor Romero addressed two notes to the Secretary of State in relation to an order issued by Major General McDowell, commanding the Military Department of California, prohibiting the exportation of arms and munitions of war by way of the frontier of that State.

These notes were referred to Attorney General of the United States, who said the question raised by the Secretary of State was whether in the opinion of the former this order was in conformity with any laws, regulations or orders in force, bearing on the subject. The Attorney General says no military officer has a right to issue any order to which he cannot lawfully compel obedience by the forces under his command. The fact, therefore, of the validity, in point of law, of this order, is whether he could lawfully employ the forces subject to his control to prevent American citizens and other persons within our jurisdiction from transporting arms or munitions of war as merchandize across the frontier into Mexico, in the present state of affairs in that country.

The Attorney General says he is of the opinion that the order of General McDowell was intended to interfere with such trade conducted by our people as the authorities have declared to be lawful, and is not therefore in conformity with any order which was probably intended to be directed against military expeditions or armed enterprises against belligerents contending in Mexico. Such expeditions and enterprises are of course violations of neutrality laws, and nothing in this opinion is intended to impugn the validity of the order in respect to them. The Attorney General apprehends it to be well settled that merchandize may lawfully sell at home, to a belligerent power, contraband articles subject to the rights of seizure in transitu. The right of a neutral to transport, and a hostile power to seize, are conflicting rights, and neither party can charge the other with a criminal act. This is the view taken by Chancellor Kent.

A message was to-day received from the President by the Senate, in answer to the resolution calling for the proceedings of the board convened to make brevet appointments of general officers in the regular army. The board, consisted of Gens. W. T. Sherman and Geo. G. Meade, Philip H. Sheridan, and Gov. H. S. Thomas, with Lieut.-Col. L. M. Dayton as recorder. The board convened at St. Louis, March 1st, all being present but Gen. Sheridan. The order included two classes of recommendations for gallant meritorious service and for faithful service.

They express in their report a sincere desire to do all full and liberal justice, and say that in the session which was a perfectly new one, we would be inclined to recommend the abolition of the whole system of the brevet rank, and to substitute in its place some other mode of reward for special gallantry in action, such as medals commemorative of the event, or to make actual promotion to vacancy, without regard to particular arms of the service, commissions have been conferred in all the past and during the present one, so that we are estopped and compelled to regard them as precedents binding on the present board.

They expressed a decided opinion that brevet rank should only be conferred for distinguished services in the face of the enemy, and that if the meritorious conduct in non-combatants duty should be thus rewarded, there would be great confusion from a disproportion in the number of high rank in comparison with the limited number of men. The recommendations are made as follows:

For the rank of Brevet Major General: Irvin McDowell, for the battle of Cedar Mountain; John Pope, Island No. 10; Jos. Hooker, Chattanooga; F. S. Hancock, Spottsylvania; J. J. Reynolds, Franklin; O. O. Howard, campaign of Atlanta; A. H. Terry, Wilmington, N. C.; E. O. C. Ord, Fort Harrison; John G. Park, Fort Steadman; S. P. Heintzelman, Seven Days' battles, Malvern, Soriols Creek; R. S. Wood, Bentonville, N. C.; and James Wilson, Selma. The district numbers twenty ranking in order as named.

Sixty-six recommendations for the brevet rank of Brigadier General were made, as follows: David Hunter, for the campaign in the Valley of Virginia; A. McD. McCook, Perryville; J. C. Foster, Savannah; C. C. Auger, Fort Hudson; Gordon Granger, Mobile; George Stoneman, Charlotte, N. C.; George Sykes, Gettysburg; Frank Steele, Little Rock; G. L. Hartsuff, for surrender of Lee; D. K. NATIONAL CURRENCY APPORTIONMENT

Letter from Secretary McCulloch.

WASHINGTON, April 24.—The Secretary of the Treasury has written a letter to the Chairman of the Finance Committee on the apportionment of national currency. He says: The Senate bill 258 is seemingly general in its provisions, but in effect it singles out Massachusetts, Connecticut and Rhode Island, and reduces their circulation to a certain standard.

It practically asserts that the circulation of National Banks in Massachusetts shall be diminished sixty per cent. The circulation of National Banks in Connecticut shall be diminished fifty-two per cent., and the circulation of National Banks in Rhode Island shall be diminished seventy-five per cent. The principle on which the reduction is based is not a correct one. One hundred and seventy-five thousand of the loyal population of Ohio or Illinois pay a tenth part required by the manufacturing and commercial communities of Rhode Island.

The bill is an amendment to section 21, of the act of June 3, 1864, and proposes to withdraw circulation from banks by a process by which it shall bear to capital. It would take from the banks in all the States, except Iowa, Kansas, Nebraska and Oregon. The reduction is to be effected gradually, as the circulation becomes worn and mutilated, and is returned for redemption. The amount of which the banks desire to be relieved is to-day. A writ of habeas corpus on behalf of Henderson from the United States District Court, Judge Ballard, was served on General Davis, who had no power from Gen. Thomas' instructions, refused to obey it. Henderson still remains here in custody of a United

The simple abolition, approximates twenty-five million dollars, and is proposed in anticipation of this reduction to authorize the issue of circulation to banks in States that have secured the least proportionate amount of circulation as it may be needed. The Secretary thinks it important that all solvent State banks should have an opportunity to become National Banks, otherwise, by the operation of a law of the United States, they will be compelled to wind up after the first day of July, and that it is a matter of great importance that provisions should be made to meet the wants of the country on and after that day.

Banking facilities are necessary to develop the industrial interest of the south, and to withdraw the circulation of those facilities which now exist, would be injurious to the general interest of the country.

A long extension of time for winding up is allowed Mr. Chase, but the bill was called to order.

The debate was quite personal and acrimonious.

Mr. Stevens moved to amend the amendment by inserting instead of the section the following: Section 2. And be it further enacted, that the Provost Marshal General's Bureau shall be continued only so long as in the judgment of the secretary of War, may be necessary to close up the business thereof, not exceeding, however, six months after the passage of this act.

Mr. Conkling accepted the amendment.

Mr. Sherman declared his impression that the sense of the House was against the other section, and his intention was not to struggle to keep it there. He stated how the section originated, and how it was sanctioned by the opinions of Gen. Grant in his letter to the Secretary of War. The 20th section was struck out by vote. The 21st, 22d and 23d sections were considered without action, when the House took a recess.

Mr. Morrill asked unanimous consent to introduce a bill in relation to the transportation of live animals from Canada. The Canadians were shearing their sheep over the border, thus evading the duty imposed on wool. Objected to.

The bill extending the time for completing certain land-grant railroads in Iowa, Alabama, Florida, and Mississippi expiring in 1869, for eight years, was recommitted and ordered to be printed.

Mr. Price, from the Committee on the Pacific Railroad, reported back with amendments the bill granting lands to Iowa and Missouri, for the State line railroad. It grants ten sections per mile on each side of the road, which is about two hundred and fifty miles long. Referred to the Committee on Public Lands.

Mr. Price also reported back the bill to secure the speedy construction of the Northern Pacific Railroad.

Mr. Randall raised a point of order. It was an appropriation bill, pledging the credit of the United States, and that it should go to the Committee of the Whole.

The Speaker sustained the point. The bill was then recommitted to the Committee on the Pacific Railroad, and immediately reported again modified, to avoid the point of order.

After considerable debate, the House without taking question on the reception of the report, adjourned.

CITY AND SUBURBAN.

Centenary of American Methodism.

Reference was made some days since to the action of the committee appointed by the Pittsburgh M. E. Conference to recommend the local objects to which contributions should be made by persons and churches. It is expected ere long that in addition to the meetings held in the various Methodist churches throughout the denomination, will likely be held, in some hall or church, to awaken greater interest in the public mind and promote the Centenary cause. This course, it is thought, would be the best. We think a general meeting of this kind would attract public attention more than by any other mode.

The German Methodists of Pittsburgh Allegheny and Birmingham recently held united services in Allegheny in the German M. E. Church, throughout the day. The church was handsomely decorated in the interior, and above the pulpit was inscribed "Jubiläum." In the forenoon and evening sermons were delivered suitable to the occasion by the Rev. Mr. Lowenstein, of Indianapolis, Ind. In the afternoon a general meeting was held, composed of members and friends of the church, at which addresses were delivered by Rev. Dr. Leitle, formerly pastor of the Allegheny Mission Church, Rev. Warnes of Pittsburgh charge, and Rev. Mr. Fritche, of Wheeling, W. Va. During the meeting appropriate and stirring hymns were sung at intervals. It was resolved that each congregation contribute to the Centenary cause before or during October in whatever way best calculated to accomplish the object in view.

While this movement is mainly confined to the Methodist Episcopal denomination, it is gratifying to note that other and younger branches of the Methodist family, such as the Methodist Protestant and Wesleyan Churches, are moving in the matter. The following persons compose the Pittsburgh Conference Centenary Committee of the Methodist Protestant Church:

Pittsburgh First Church; John Cowl, J. J. Bennett, E. H. Marshal, T. H. Harton; Pittsburgh Second Church: J. Robison, R. Marshall, J. Hervey; Pittsburgh Third Church: Thos. Lucas, J. H. Cluney, C. E. Gleason; Allegheny Second Church: S. V. Crowther, W. H. Phipps, E. Johnson; Birmingham Church: R. H. Sutton, Reitman; Lawrenceburg Church: W. Collier, T. H. Gibson, J. Cook.

Amusements.

LITTLE'S BENEFIT.—To-night Mr. J. Z. Little, late of the Varieties, takes a benefit at the Opera House. Mr. Little is a first class stock actor in the "heavy business." As a reader he is *au fait*, while his acting generally is of a high order, and his deportment that of a gentleman, whether off or on the stage. Since his advent amongst us, some nine months ago, he has made many warm personal friends who, we doubt not, will be glad of the present opportunity to testify to the same. It should also, in justice to Mr. Little, be remembered that Mr. Charles Dillen, the accomplished actor and gentleman, suggested this benefit, and volunteers for the occasion, when he gives one of his most popular characters, "King Lear," in which he stands unrivalled. If the play-going public do not turn out en masse to-night, we shall immediately after the conclusion of "King Lear" there will be a testimonial presentation to Mr. Little.

ACADEMY OF MUSIC—SALE OF SEATS.—The sale of season tickets and seats for the Grover season at the Academy of Music went off very lively yesterday, and the greater part of the house was taken up. To-day and to-morrow season tickets, and to-morrow seats for single Operas can be obtained. The season opens on next Monday night, and those who fail to secure seats now will certainly have a chance at the opening. The diagrams can still be seen at Messrs. Mellor and Kleber's Music Store, where tickets can be obtained.

PITTSBURGH THEATRE.—Edwin Adams played to another good house last night, in the character of "Wild Oats." This evening he will make his appearance in the play of "Enoch Arden;" Under the Palm," in which he has attained a fair reputation. The piece is well worth seeing. To conclude with a laughable farce.

MASONIC HALL.—Cotton & Murphy's California Minstrel Troupe are drawing large houses at Masonic Hall. Their performances meet with the hearty endorsement of all patrons, as manifested by the applause they elicit.

The Yield of Petroleum.

The Oil City *Register* contains the following in reference to the aggregate production of oil since 1859. "After six years development, during which the Petroleum region has proved itself capable of supplying, obtained from an extent of territory that can be compassed in a space not to exceed thirty square miles, has averaged annually 1,000,000 barrels of oil, of forty-two gallons to each barrel, we find the daily production up to the full average, say 7,000 barrels per day. Until within the past two years, the Valley of Oil Creek and Cherry Run, furnished the only material supply. But during this time, other localities have been developed, and the production has proved large. Pithole Creek and Pithole, Upper West Hickory, Dennis Run, and other localities have proved rich in Petroleum product. Other localities are being developed, that give good prospect of an abundant yield. Pithole Creek has lately given evidence of a decreased yield. We do not say exhaustion, for we do not admit that any such term will truthfully apply to the Petroleum supply. During 1862, the average daily production of the valley of Oil Creek was about eight thousand barrels. During 1865, at times, the production scarcely exceeded three thousand barrels per diem. The reason for the decrease has since been satisfactorily proved. The wells were sunk in such close proximity, that they interfered by letting the water, or "drowning out," (as it is termed) each other. A well without being cubed, so as to shut off the water, frequently interferes with or stops a dozen of the adjoining wells."

Double Tribulations.

John Closs, 15 years of age, employed in McCully's glass works, Ninth ward, being afflicted with double strabismus, causing great deformity and loss of sight of his right eye, recently consulted Dr. Hostrez, who by careful operations succeeded in not only giving both eyes exactly straight and natural, but also in restoring the right eye to almost perfect sight.

Consternation Among Sunday Beer-Sellers—Eighteen Informations Made—Troy Hill and Spring Garden in a Flutter.

Considerable flutter was created yesterday in the lager beer region of Troy Hill and Spring Garden, by a wholesale arrest of the beer hall proprietors of that neighborhood, the informations having been made by several parties, with a determination of putting a stop to the Sunday beer traffic and an effectual quietus to the turbulence and disorder which characterizes these places on that day. We are informed that on last Sunday the German population, and their families, together with a large sprinkling of natives, flocked by hundreds to those resorts, and during the day held high carnival. The "gardens" were open, and the malt decoction flowed as freely as ever it did at a Fourth of July celebration. Officers Pender and Keep succeeded in arresting nearly the whole party yesterday, and in addition made several arrests in Allegheny of persons charged with violations of the Sunday ordinance. They were all brought before Alderman Gumbert, of the First Ward, who heard a few of the cases, and postponed the others for a further hearing.

Joseph Lodnk, Wm. Eunstein, and Jacob Letterey, against each of whom there are two informations, and George Heckerman, all of the classic locality of Troy Hill, Reserve township, were held for a further hearing on Saturday. G. Siedle, of Reserve township, was discharged. Conrad Eberhard entered bail for his appearance at the next hearing, and Wm. Meyer and Geo. S. Steneragle, keepers of a beer hall in Duquesne borough, were held to $500 bail for trial at Court, and John Latterly of Troy Hill, also entered bail upon one information, and a second information postponed till Saturday for a hearing.

Jacob Hine, Duquesne borough; Peter Richter, Spring Garden, Reserve township; J. Lang, M. Zerhard and Charles Bittner, of the Fourth ward, Allegheny, and Joseph Sweitzer, of the Third ward, Allegheny, were each held for a hearing on Saturday. A hearing was had in the case of John Horne, of Third ward, Allegheny, but the witnesses in the case were all drunk, having evidently been tampered with, and the case was dismissed.

An English Bruising Affray.

Mayor McCarthy yesterday had before him a case defined under the penal code as an "unlawful assembly and affray," but in the vernacular of the "fancy" a "bruising match." The affair happened on Monday night in the barroom of the "Bull's Head," on Second street, opposite the Park, in the Fifteenth ward, which was an impromptu one, were two Englishmen—James Rogers, a native of Wolverhampton, and George Bromley, a Lancashireman. It appears that after such a party of friends entered the tavern for the purpose of getting a drink, and while there, Rogers, who had been freely imbibing in fighting whisky, declared he could whip Bromley, and bantered him to fight. The latter being a quiet, peaceably disposed man, declined having anything to do with Rogers, but Rogers insisted upon a fight, in which he was backed by the proprietor of the house, himself at one time something of a pugilist. Bromley was finally compelled to accept, yielding under the pressure, and consented to give Rogers a trial of his prowess. The parties repaired to the upper room and Spencer locked the doors, when a circle was cleared, the two took off their coats, "time" was called, and a regular stand-up pugilistic contest ensued, during which both parties sustained numerous facial bruises. How many rounds were fought has not been ascertained, but the contest ended by Rogers' seconds "throwing up the sponge" as a token of defeat the fight being one of two hours' continued before Chief of Police Hague, with a posse of officers, made their appearance, and arrested the proprietor of the house, Joseph Spencer, and the combatants, Rogers and Bromley.

At the hearing before the Mayor, Thomas B. Hamilton, Esq., appeared as counsel for Spencer, and R. G. Childs, Esq., for Bromley. The hearing occupied all the afternoon. His Honor, after a full investigation of the affair, held the parties to bail for their appearance at Court—Spencer in the sum of $2,000, Bromley $500, and Rogers $500.

U. P. Presbytery of Allegheny.

This body met recently in the Fourth United Presbyterian Church, Allegheny, when the following business was transacted. A call from East Union, addressed to Mr. Wm. Weir, was sustained, presented and accepted, and arrangements made for his ordination and install him on the third Tuesday of June, at 10 o'clock, A. M. Mr. Weir's trial will be heard in the First U. P. Church, on the 1st Tuesday of May, at 7½ o'clock, P. M. A call from Wirtemburg, for one-half time of Mr. Jeremiah Britton, was sustained, and the Clerk instructed to forward to Mercer Presbytery. The conduct of Mr. Samuel R. Kerr not being satisfactory, it was resolved that he be cited to appear before Presbytery at its next regular meeting and show cause why action should not be taken in his case. Mr. Bruce, a student under care of Presbytery, was granted a certificate. The Fifth Church, Allegheny, asked for $300 for the coming year. Their request to Tom Sewickly were exceedingly favorable. They ask for no more appropriations and are determined to give their young pastor a living support. James Reid was appointed delegate to the Legislature Assembly, in place of Mr. Thompson, resigned. Dr. Pressly was requested to prepare a memorial sketch of Rev. Hall, deceased. Messrs. Sturgeon and Patterson were appointed a committee to report on the case of Samuel R. Kerr. A special meeting will be held on the third Monday, the 7th inst., at 7½ o'clock, P. M., in the First Church, Allegheny, to hear discourses from Messrs. Weir and Evans. The next regular meeting will be held at East Union, on the third Tuesday of June, at 10 o'clock, A. M.

Charge of Perjury

An information for perjury was yesterday preferred before Alderman Strain by Paul J. Caperton, a saloon keeper on the west side of the saloon, corner of Penn and St. Clair streets, against one Benjamin Harris, also colored, and a resident of Washington City. Harris, it seems, about a month ago, became twelve of thirteen years, who was born a slave near Winchester, Virginia. He so remained until within a few months ago, when he left, against a relative by marriage, at great personal risk, went down for him, and with difficulty succeeded in bringing the boy and two sisters away with him to this city. Harris being fond of the recovery of his supposed lost son than he tried repeatedly to get him away from Mr. Caperton, but they did not want to go. The latter, to prevent such a move, appealed before Alderman Strain succeeded in having the Alderman receive the information, charging the boy with unlawfully absenting himself for his arrest. The boy was brought before the Alderman, and before Mr. Caperton could appear or get counsel, Harris had spirited away the boy to parts unknown. The prosecutor charges him with falsely and corruptly swearing that the boy was incorrigible," when he would not know anything about him, not having seen him for a number of years, confronted with him at the Alderman's office. Besides it is alleged that the boy is as good and dutiful a boy as ever lived. A warrant was issued, but, of course, the defendant cannot be arrested upon it. Upon the finding of the indictment, however, a requisition will be obtained from the Governor.

Meeting of the Sanitary Committee.

The Sanitary Committee appointed by councils met on Monday evening and after a free interchange of views in reference to the condition of the city, and the means to be employed in its purification, adopted the following resolutions:

Resolved, That the members of the committee from each ward, block out their respective wards, and appoint a sub-committee for each block, who shall report to the Sanitary Committee.

Resolved, That the meetings of this committee shall be held on Monday evening of each week, to receive reports of sub-committees, and that it co-operate with the Board of Health.

Resolved, That the Chief Engineer be and they are hereby requested to appropriate $5,000 for the use of the Sanitary Committee.

Resolved, That a Committee of five, two from the Board of Health and the street Commissioners, be appointed to prepare rules and regulations for the government of the Sanitary Committee.

The resolution was adopted, and the following gentlemen appointed such committee: Messrs. Coursin, Loew, Steel, Boggs and Hare.

On motion, Messrs. Lang, Coursin and Rees were appointed a committee to invite the Board of Health and the street Commissioners to attend the meeting of the committee.

"THE HISTORY OF USURY from the earliest period to the present time." By J. B. C. Murray. Philadelphia: J. B. Lippincott & Co.

To all business men who are interested in the matter of borrowing and lending money, this work must prove of great value. Bankers and Brokers, especially, will find it full information on this particular subject, which is not easily accessible in any other form. It discusses the general principles concerning the conflict of the laws of different countries, and also contains an examination into the policy of laws on usury and their effect upon commerce.

Allegheny Library Association.—A public meeting will be held in the Reading Room of the Allegheny Library Association to-morrow evening, at 7½ o'clock, for the purpose of creating an increased public interest in the Library. A number of prominent speakers will be present. During the past two weeks one hundred and two members have been added to the Association. It is now in a flourishing condition, and all are requested to aid in rendering it still more so. Those not members are especially invited to attend.

Non-Episcopal Convention.—The Convention to be composed of delegates from the various non-Episcopal Methodist churches meets in Cincinnati next month. The following persons have been selected to represent the Pittsburgh Methodist Conference: *Minister's*—Geo. Brown, Wm. Hamilton, Wm. Collier, Jno. Scott, James Robinson, J. D. Herr, H. Palmer, Alex. Clark. *Laymen*—J. Redman, H. Fordyce, W. W. Troth, R. H. Marshall, G. W. Pogue, H. T. Reeves, J. H. Bard, J. B. Myers.

Hamill's Photograph.—That most enterprising news dealer, John W. Pittock, opposite the post-office, has published a photograph of Jimmy Hamill, the great oarsman, who is now on his way to England to demonstrate to Johnny Bull that Britannia does not "rule the waves," and that Brudder Jonathan is mistress of the seas. In the photograph Hamill is represented as in the midst of an aquatic contest with every nerve braced and every muscle strained. Of course every one will desire to obtain a copy.

Assault and Battery.—Thomas Robinson made oath against Thomas Sweeten and another man named Herchenroether, before Alderman Strain yesterday, charging them with assault and battery. A quarrel arose between the parties at the Allegheny drove yards, about some sheep, in which Robinson was roughly handled. The defendants are butchers, doing business in the Allegheny market, and Robinson is a farmer residing in Marshall township. Warrants were issued for the arrest of the defendants.

School Tax.—The Central Board of Education met last night, and levied a tax of six mills for school purposes.

The District Attorney's Office.

We learn with some surprise and the most sincere regret that John W. Riddell, Esq., the very efficient Assistant District Attorney for the past four years, has been superseded. His successor is J. B. Flack, Esq., a rising young member of the bar.

We have no objection to urge to Mr. Flack, who is in all respects an estimable young man; but he lacks experience: and as the District Attorney was chosen mainly in consideration of his military services, we think he would have succeeded better by retaining the services of an experienced assistant, and commanded more thoroughly the confidence of his political friends. Experience, in such an office, is invaluable, and the public will feel a disappointment in seeing it dispensed with.

Mr. Flack, however, has ability, industry, patience and zeal to back him up; and these, properly developed, never fail of success.

We part with Mr. Riddell, in this capacity, with much regret. We have received from him so many kindnesses, and have witnessed so much of his indomitable energy in carrying on the laborious duties of his office, that we may be excused for regarding his dismissal as, in some measure, a public loss.

Freedmen's Meeting.

A rare entertainment is offered the friends of freedom, this evening at 7½ o'clock, in the First Presbyterian church of this city. This is the time of the annual meeting of the General Assembly's Committee on Freedmen. An abstract of their Annual Report will be read, while the principal address will be delivered by the Hon. Samuel Galloway, of Columbus, Ohio, one of the most popular public speakers in the west. To hear Mr. Galloway at any time is a great privilege. His reasoning, his wit, and his sarcasm are rarely surpassed. His best energies have always been expended in behalf of freedom, patriotism, right, and religion. On such a theme as the Freedmen he will no doubt appear to the very best advantage. Let the friends of the down-trodden, of this country, of freedom, of the highest interests of humanity, assemble this evening, so that the old First church may be filled to its utmost capacity to greet one of Ohio's most gifted sons. No collection will be taken.

Injunction Asked For.—Hugh Richardson, butcher, of Reserve township, applied to Judge Stowe, on Monday, for an injunction to restrain Wm. Bunde, and others, quarrymen, from blasting on their premises in such a manner as to endanger the lives of the plaintiff's family. Witnesses were called to prove that the respondents could "blast in," without difficulty, and thus run no risk of injury to either property or life in the neighborhood. The Court ordered them to do so, and the case was then dismissed.

Mr. Thomas Costamagna has opened an Advertising Agency at No. 124 Fourth street, nearly opposite the Mayor's office, where he will attend to everything connected with the advertising business. He has also the Agency for several Life and Fire Insurance Companies, and will be pleased to see his friends who may have business to transact in any of these departments.

Sunday Liquor Selling.—John Wirty, keeper of a drinking saloon under Lafayette Hall, was yesterday fined $50 by Alderman Gumbert, for selling liquor on Sunday.

Information was made yesterday before Alderman Strain, by Edith Mante, charging Frank Wolf, of McClure township, with selling liquor on the sabbath. A warrant was issued for his arrest.

Sunday Liquor Selling.—John Mullen and Isaac Fickelson, tavern keepers on Third street, were arrested and taken before Mayor McCarthy, on a charge of selling liquor on Sunday. The evidence against them was so conclusive that they plead guilty and forked over the penalty, $50 each.

MR. CLYMER'S INCIVISM.

Mr. CLYMER filled a seat in the Senate of this Commonwealth throughout the whole period of the rebellion. He was chief of the Democratic leaders in that body. He had advantages, personal and acquired, which gave him special influence over such of his colleagues as belonged to his party. He was both their mentor and champion.

We do no injustice to Mr. CLYMER in asserting that from the beginning of the war to the end of it his sympathies were strongly enlisted on the side of the rebels. Had he been under the immediate direction of Mr. JEFFERSON DAVIS he would have pursued substantially the course he marked out for himself. Whatever obstacles he could put in the way of rendering efficient aid to the national authorities in the prosecution of the war he was sure to bring forward. Not an important measure was proposed for arming the State, for putting volunteers into the field, and for repelling actual invasion, that he did not oppose. In some instances, to be sure, he did not resort to a bold and defiant method. He was fruitful of specious amendments, intended to emasculate vigorous measures, to retard action, and frustrate desirable results. When he had fought a bill in this way, with parliamentary ambuscades and stratagems, and was likely to fail, he would often assign the rejection of his modifications as the reason for voting in the negative on the final passage. But, in these cases, everybody saw and felt—everybody now sees and feels when reading the official record—that at bottom he was just as much against the national cause as the rebels themselves; and that, in the sphere in which his lot was cast, he was laboring as earnestly as they were to destroy the government. Scarcely VALLANDIGHAM himself has a worse record.

Ought such a man to be elected Governor of Pennsylvania. Is he a fit successor to Governor CURTIN, whose hands he sought to tie, whose plans he endeavored to thwart, all through those eventful years? It seems to us that the bones of Pennsylvania's dead patriots, fallen in the great contest, would shake in their honored graves, at such a disgrace.

This is not a question of ordinary diversities of political opinion. It is vain to speak of the excellence of Mr. CLYMER's personal deportment; of the amenity of his manners; of the compass of his intelligence; of the breadth of his understanding. All these considerations weigh lighter than air against his undeniable incivism. Who doubts but many of the rebel leaders possessed all the social virtues and graces in as high a degree as he does? Who doubts that some of them surpassed him in intellectual culture, in force of reason, and in the charm of oratory? It matters not what accomplishments a man may show, if he has pursued such a course as to justly rank him with the enemies of the country. If a man is not thoroughly loyal—if in the time of trial he has been found wanting—pre-eminent natural gifts and acquirements only make his conduct the more offensive.

If Pennsylvania had followed Mr. CLYMER's lead; if she had adopted the line of policy he mapped out and pertinaciously recommended; not only would her territory been overrun, her fields laid waste, her towns given to the flames, and her railroads torn up, but the government would have been so paralyzed that the Union would have been lost. It is absolutely monstrous to talk of electing such a man to the Chief Magistracy of the State. There ought to be such a sentiment among the masses of the people as would make his aspirations hopeless, as would consign him to private walks for the remainder of his days. That there is such a sentiment among Republicans we feel and know. The Democrats talk of serious divisions and whole-sale apostacies among us. Not a half dozen grains of fact can be sifted out of whole loads of this chaff. A few men, inspired either by greed or unrest, may be willing to repudiate or adopt any principle, if by so doing they can obtain the honors and emoluments of office; but the influence of these men begins and ends with themselves. It is a consciousness of this that leads to suggestions of a third candidate to help Mr. CLYMER's chances. All such expedients are powerless. The people have to choose between a gallant soldier, who freely periled everything for the cause, and a politician who did all he could to serve the rebel leaders. On that issue the stragglers from the Republican ranks will be too insignificant in numbers to afford a count.

THE JOHNSON ORGAN of yesterday announced that Col. SAMUEL MCKELVAY has been appointed U. S. Marshal for the Western District of Pa. This is the Col.'s reward for presiding at the tiny Johnson meeting that was held in the mud on Market Street a few weeks since.

The present Marshal, Mr. MURDOCH, has been a faithful, obliging, courteous and in every way excellent officer; and so closely has he confined himself to the duties of his office without meddling in politics that we do not know how or where he stands on the issue between the President and Congress. The removal of such a man is not only an act of the grossest injustice but one of supreme folly, on the part of the President. Mr. MURDOCH is a man of wide influence. He has at his back the political power of the county in which he lives, to say nothing of what he has outside, whilst Mr. MCKELVY has not enough to carry the ward in which he votes. To exchange the one for the other, therefore, must prove a losing game to the President.

The same thing may be said of all the other removals made or likely to be made in this State. In every case, taking the current reports of the names of the probable appointees, the officers removed are gentlemen of influence, who have been and are potential in politics; while those who are to take their places are men who have either exhausted what influence they had, or have none to be exhausted. The President gains nothing, politically, by putting them in, and has everything to lose by turning the others out.

TYLER had no difficulty in finding men to accept office from him; but he had to look for them in the class without political power, just as JOHNSON is now doing. The parallel between them in treachery is therefore holding good in the consequences, and will continue until JOHNSON, like TYLER, at the end of his brief reign, sinks into the obscurity begotten of universal contempt.

RIGHTS OF LABOR.

The substitution of machinery for hand-craft, in all departments of industry, has been regarded with disfavor by a considerable portion of the laboring population. When power-looms were first introduced in Europe, many weavers were greatly incensed, and not a few power-looms were demolished by them, under the supposition that they were contrivances for reducing work people to a condition of absolute dependence on their employers. It was a long time before this class came to regard with complacency any applications of steam to the propulsion of machinery. Stage-drivers and teamsters, in this country, very commonly, in the early period of development, looked with an unfriendly eye on the building of railroads. They did not comprehend to what other uses they and their horses could be put to.

This feeling, the natural offspring of ignorance, has not yet altogether died out. Recently it has been manifested with surprising strength, in the oil district of this State. Some enterprising houses conceived the plan of running the products of their wells in pipes to the place of shipment. The execution of this plan took from a considerable number of teamsters the employment to which they were accustomed. In revenge they fired certain receiving tanks, destroying the works. Other acts of incendiarism are threatened from the same cause.

Upon analysis it will be found that this scheme for retaining a particular form of employment, in a definite locality, does not differ in essential elements from the common method resorted to in case of strikes of preventing persons who are willing to go on from continuing at work. The incendiarism is only an exaggeration of the forcible restraint. In all these instances laborers become offenders against individual and public rights, and in the long run, subject themselves to serious losses.

AS A Sanitary measure the Legislature of the State of New York has given the Board of Health of New York city exclusive power to regulate the sale of liquors. Licences must emanate from the Board of Health, who must be very circumspect as to the "personal responsibility and respectability" of the person to whom a license is granted. All low, rowdyish and irresponsible characters are to be denied licences and their "places" closed. Thus it is expected to place a check upon the evils of the present loose and villainous liquor-selling system, and bring it under complete and restraining control. The police have already commenced putting the new excise law into force, and the effect among the keepers of low dens and groggeries can readily be imagined.

THE leading democratic journals are not satisfied with the President's interpretation of the Peace Proclamation. They supposed, naturally enough, that peace meant the subordination of the military to the civil power; but find it does not. Searching fully they will find the Proclamation meant two things: 1. To determine when the Freedmen's Bureau shall be closed; it having a year to run from the declaration of Peace. 2. To bring down the pay of army officers to the Peace basis. Beyond these points the Proclamation, as explained by the Executive Department, has no effect. While asserting Peace to be restored, it leaves all the other conditions of a state of war.

THE Harrisburg *Patriot and Union*, the organ of the democratic party, says a call has been made for a Republican JOHNSON State Convention, to be held in this city, in July, to nominate a candidate for Governor, and that the object is to defeat General GEARY. We are not at all alarmed, by this announcement, for the General. But we should be glad to see what names, of living men, are appended to the call. Pray, put them in print.

THE PUBLIC understand that General PALMER has had a warm time in Kentucky. Upon his retirement, the Louisville *Journal* takes leave of him in this pleasant fashion:

"General Palmer returns to civil life, shortly. We bid good-by to him without any feelings of personal ill-will. He has made mistakes; and who does not? But we think he has tried to do his duty to the best of his judgment, and many men would succeed in a less degree."

PRESBYTERIAN.—On the 17th of May the General Assemblies of both the Old and New School General Assemblies will meet in St. Louis—the Old in the Second Presbyterian Church (Rev. Dr. NICHOLL's)—the New in the First Presbyterian Church (Rev. Dr. NELSON's.) The expectation of measures looking to re-union imparts special interest to these convocations.

THE IMPORTATIONS at New York during the first eight months of the current fiscal year reached the value of $203,533,754, a little less than double the amount for the corresponding period of the preceding year. How does that comport with the democratic declaration that the duties are so high as to preclude importation?

THE NATIONAL income from direct taxes reached $500,000,000 a year. The Government does not need $300,000,000. After providing a liberal Sinking Fund for the ultimate payment of the public debt, $150,000,000 of taxes could be remitted. Will Congress act on this matter speedily?

For the Pittsburgh Gazette.

"Hurry up your election—if you cannot send a Vadical send a Copperhead."—*Thad. Stephens to the Governor of West Jersey.*

And so say I, my dear Mr. Editor, for of all men to be shunned and feared it is one of your Conservatives—your milk and water men—a Judas. They are not to be trusted, for while you think them your friends, you may be stabbed to the heart. A. Johnston, of Tennessee; Ex-Governor Johnston, of Pennsylvania; Lane, of Kansas; Doolittle, of Wisconsin; Cowan, of Pennsylvania, and lastly, your neighbor of the *Commercial*, are all of this stripe. Thus saith the Scriptures: "They that are not with me are against me." We are either for our country or against it. The *Commercial*, in sanctioning and sustaining the President in "my policy" of admitting red handed rebels into Congress, shows its sympathy with rebels. If it favored the admission of Southern representatives sometime away off into the future, when they gave positive evidence of *repentance* that would all be right—but to abuse as it does daily the most patriotic Congress the country ever had, because it does not forsooth as mit immediately these Fort Pillow, Andersonville, and Belle Isle assassins! I say such a sheet is in full sympathy with rebels. If not in sympathy, why this unreasonable haste to have rebels back into Congress?

I say it is in poor taste, to say the least, for a paper in this community to impeach the honesty and ability of our Congress by such articles as the one headed "A Statesman wanted." The statesmanship, the honesty, patriotism and talent of our Congress, "where liberty alone in Washington lives"—"the holy of holies of the American people"—has been too well demonstrated before the great loyal North to be doubted, and all the contemptuous flings of the *Commercial* will have no more influence with the loyal North than the silly, drunken speeches of its master, whose collar it wears, who has done more to dishonor his high position than all the Presidents we have ever had, not excepting Pierce or Buchanan. GEN. FRANZ SIEGEL has been chosen President of the International Transportation Company.

JUDGE DRYDEN, of the Supreme Court of the State of Missouri, with two other judges of like obnoxious antecedents, was ousted by Governor Fletcher, under the authority of the vacating ordinance adopted by the State Convention. Believing the action of the Governor to be unconstitutional, Dryden brought suit, claiming $50,000 damages. Before the case had proceeded far, the chance of recovering damages was discovered to be worth nothing, and was not pressed.

IN CASE Congress should attempt the impeachment of President Johnson, and he should resist, the Jackson *Mississippian* is of the opinion that a revolution is a possible eventuality of the next few months, with a crash in comparison to which the guns of Sumter were as nothing. "It would not be," continues that paper, "like the crusade of 1861, when distant battle-fields were to be tried, but it would be fireside anarchy—local conflict—the shattering of social life at home."

AT THE Union mass meeting at Jacksonville, Illinois, on the 21st, 5,000 people were present. Gov. Oglesby made a speech, denouncing President Johnson and advocating universal suffrage. Resolutions were adopted sustaining the position on the reconstruction question of the Union majority in Congress; approving the passage of the Civil Rights Bill over the veto, declaring that Congress should remain in session until the present threatening aspect of national affairs is past; and tendering thanks to the Union Senators and Representatives from Illinois.

THE dispute as to Confederation in the Province of Nova Scotia has developed a spirit not altogether favorable to its future retention by the British crown. One member of Parliament is charged with treason, and "threats of disloyalty," says The Toronto *Leader*, "are bandied backward and forward in a way that is not at all edifying."

A CORRESPONDENT challenges the good taste of parading the portrait of General Robert E. Lee in the show window of Broadway book-stores. Why not? The book-sellers offer for sale what customers are likely to buy; and they wish to let their Democratic friends have portraits as well as Republican.

REPORT hath it that the Fenians in Union square are about dissolving partnership and going into liquidation. The Roberts Fenians, however, seem to be in a flourishing state, and it is to that organization that the Irish look for a solution of the problem which has so long vexed them.

THE Tennessee Attorney General at Memphis has publicly declared that he will "neither obey nor respect the infamous Civil Rights law." Why is he not a good subject upon whom to test the practical effect of the penalties of that new enactment?

WHEN the law conferring suffrage upon the colored male adults of the District of Columbia goes to the President for his signature he can make good his statement in his latest speech that he is their best friend.

ITALY does not seem to enjoy as popular a government as we have been led to suppose, for during a few weeks past the military have made 90,000 arrests for political offenses.

GENERAL NEWS.

CAPT. PHILANDER PHINNEY, with Company E, Fifteenth Wisconsin Volunteers, forty-eight strong, arrived at Madison very unexpectedly on Thursday evening, direct from Fort Sully, Dakota Territory. They left Fort Sully March 20th, and after a tiresome march of 300 miles, with extreme cold weather and a snow from six inches to two feet deep, they reached Sioux City April 5th. Failing to secure muster-out at that point, they again resumed their journey and with a march of 200 miles reached Boonsboro, Iowa, where they took the cars for Chicago, and thence homeward for muster-out, under orders received at Sioux City. The entire trip was made without accident of any character.

A LUSUS NATURÆ.—A strange anatomical phenomenon is recorded in a continental paper. A young non-commissioned officer of the French army recently died in a hospital, his disease being typhus fever. For some cause or other the surgeons made a post mortem examination of the body, which disclosed the fact that the whole internal arrangement of the man was reversed, his heart being on the right side, liver on the left, &c. The young man had always enjoyed excellent health up to the time of taking the fever of which he died.

THE Rochester *Union* says: "There are millions of bushels of rotten wheat now lying in the storehouses of Chicago, to be shipped when navigation opens. This grain, in all stages of decomposition, will be put into vessels, sent to Buffalo, put into elevators, thence taken in canal boats to all points where these craft go, chiefly to New York, and thence it will be sent to New England. This wheat is wholly unfit to be eaten, and will breed cholera wherever it is allowed to go."

SEIZURE OF WHISKY.—The United States Collector, at St. Joseph, on Monday seized about twenty-five barrels of whisky, for non-payment of Internal Revenue tax. The whisky was from the distillery of T. B. Duty, in Buchanan county, and was loaded up ready to start across the plains. The distillery from whence this whisky came has been under suspicion for some time, on account of failure to report the amount manufactured. There will probably be some confiscation. —*St. Louis Dis.*

THE St. Paul *Press* describes as fearfully grand the breaking of the immense ice gorge above the Falls of St. Anthony, last week. Twelve boom piers between the suspension bridge and the falls were destroyed, causing a loss of about $6,000. A lumber jamboree on the Minnesota side of the river was also carried away, involving a loss of $4,000. A portion of the upper bridge was also broken down. About $700,000 worth of logs were floated off. The suspension bridge was uninjured.

THE growth of the British metropolis constitutes one of the great marvels of the nineteenth century. At the time of our first war of independence London contained a population of only 900,000. At the present time it comprises three millions and a half in metropolitan districts alone, beside half a million in the new suburban regions, making a total of four millions.

THE project for the formation of a new State out of East Tennessee seems to be gaining formidable dimensions. The address for a convention upon the subject, called to meet at Knoxville on the 3d of May, is influentially signed by persons in almost every county in the proposed new State. The Nashville *Union* approves the project and it does not seem to meet with any special opposition from the press.

NEW HARBOR ON LAKE SUPERIOR.—Congress has passed an act granting 100,000 acres of the public domain to aid in digging a ship channel from Lake Superior to "Lac-la Belle." The object is to make a new harbor on Lake Superior, which will be, it is said, the best harbor above Portage Lake. The total length of channel to be cut is only 4,270 feet.

PROVIDENCE is agitating the question of how to supply itself with pure water. The Pawtuxet, Blackstone, Ten Mile or Woonsquatucket rivers are proposed for the source from which to draw. The estimated cost varies according to the rivers, being at highest, twenty-five hundred thousand, and at lowest eighteen hundred thousand dollars.

A MARRIAGE took place in Richmond a few days since which is exciting a great deal of talk among the fair dames of that city. It seems that a well-known Virginia lady joined herself in holy wedlock to an officer of the United States army, and has thereby brought down upon her the wrath of the reconstructed chivalry.

SIXTEEN murderers, five of them under sentence of death, are at present confined in the Tombs prison, New York.

THERE are fourteen lawyers, five clergymen and three physicians among the legislators, elect of Connecticut.

NINETEEN deaths have resulted from the explosion of nitro-glycerine in San Francisco.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, Feeble and Complaining? Are you out of order with your food deranged and your feelings unpomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into healthy action, and thereby remove the obstructions which cause disease. Hence this purifying, purgative cure carries off the troubles somewhere in every one, and invigorates the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and easily and thus surely cured by the same means. None who know what the virtues of these Pills will justify neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Biliousness, Constipation, Heartburn, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fever, rendered by the whole class of diseases originating in the Malarious Districts of the Mississippi Valley, caused by the Miasm of stagnant or miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. And the inhabitants of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by R. A. FAHNESTOCK & SON & CO., and by all Druggists. mh16:2md&wF

The [illegible]urgh Gazette.

WEDNESDAY, APRIL 25, 1866.

ROBINSON, McCLEAN & CO.,

Bankers and Brokers,

No. 75 Fourth Street, Pittsburgh,

Dealers in all kinds of Government Securities, Gold and Silver, Uncurrent Bank Notes, Foreign and Domestic Exchange, etc., etc., etc.

Deposits received in Par Funds and Currency. Interest allowed on time deposits. Collections made in all parts of the United States on most favorable terms.

Orders executed with dispatch for everything in the business at the Boston, New York, Philadelphia, and Pittsburgh Brokers' Boards strictly on commission.

Draw on H. CLEWS & CO., New York, J. COOKE & CO., Philadelphia; Messrs. C. D. & T. H. PERKINS, Boston.

FINANCE AND TRADE.

TUESDAY, April 24, 1866.

The supply of capital is working favorably for borrowers. Number one commercial paper is scarce, and second rate is less plenty than a week or two since. The eastern market is reported unusually easy, with a daily accumulation of deposits at bank. Under the stimulus of unemployed means, the stock market is more active, and prices are better. Governments continue to improve, gold bonds and currency notes both moving up together on a steady gold market. Railroad shares took a downward turn yesterday, but closed firm, and are to-day up to full quotations.

New York telegrams report as follows: Gold, 126¾; United States Bonds 1881's, 107¾; Five Twenties, 105¾; Ten Forties, 94½; Seven Thirties, 103; Certificates, 100; Fort Wayne & Chicago, 96¾; Cleveland & Pittsburgh, 81¾. Pittsburgh rates vary but slightly from the above. Gold, 126; May Coupons, 124¾@124¾; 7-30's, 101½; 5-20's, 104¾.

Bank stocks are firm. Holders seem to be much above the views of buyers, as we have but few sales to record, though this class of stock is in demand—85 is bid for Exchange National; 61 for Citizens; 70 for Mechanics; 61 for M. & M.; 67 for Bank of Pittsburgh. Sales of Peoples National to-day at 110. For the Fourth National we have 105 bid, 110 asked. National Bank of Commerce held at 108. There is some movement in the cheaper class of Railroad shares. 40 bid for Allegheny Valley Railroad, sales reported at a fraction above that figure. Pittsburgh & Steubenville is heavy, with little or no inquiry at about 45@45. Connellsville, 40 bid, but little on the market, and that held at 40@41.

The chief feature in the stock market for the past two or three weeks has been the constant advance in Government bonds. All of the various kinds are now selling above par, with the exception of the five per cent Ten-Forties, which sell freely at 94, and are beginning to attract much attention. With the advance in Five Twenties and Seven Thirties, the five per cent bonds will, of course, appreciate steadily to Par, even though gold should decline much below its present premium. It is a noticeable fact that for every seller to realize profits two buyers for permanent investment. The purpose of employing money temporarily. This increased confidence in Federal securities is giving employment to money used lately in railway property, and for the moment shares property is neglected, except by speculative cliques waiting for an outside demand to relieve them of their present load.

—The New York *Commercial Advertiser* says as to the possible course the Secretary of the Treasury will take under the authority of the loan bill:

"Congress having conferred upon the Secretary of the Treasury authorization to fund the short term into a permanent form, some interest is held in the question as to what form of permanent security the Secretary is likely to adopt. The question is one of very considerable importance, and it is to be hoped that the Secretary of the Treasury will give a leisurely heed to the course of public opinion upon a matter which so intimately concerns the convenience and interests of the investing public. There is, in many quarters, a desire to have the whole debt funded into a uniform long date security, say thirty or forty years, and free from any option which would enable the Government the right to redeem within a shorter period. Among other recommendations addressed to Mr. McCulloch upon this subject, is one by Henry Clews, suggesting a United States Consolidated loan, to consist of thirty years bonds, without option, at five per cent, principal and interest payable in gold; the debt to be exempt from National, State or municipal taxation, and to be issued in exchange for any outstanding securities. There can be but little doubt of the feasibility of putting out a five per cent thirty-year bond for at least so much of the currency interest loans are now paying, six per cent. A thirty-year five per cent bond would be almost as good as a 5-20 of 1862, inasmuch as the latter will mature next year, and will then, in all probability, be redeemed, to be replaced by a six per cent long bond. It may, however, be questioned whether holders of the seven-Thirty notes, which at maturity can be converted into a bond paying certainly six per cent in gold, for five years, would accept the cousols above suggested.

—We extract the following, in reference to government bonds, from the stock report of the Philadelphia *Ledger*, of Monday:

The demand for all kinds of Government loans was good, and large lots of 7-30s sold at 101¾@102. The demand for this particular loan is certainly the place above the general market for the 5-20s into which they are to be converted. The latter, with the May interest off, are worth but 101¾ per cent, including the May coupon, at 75@85 per cent in currency) while the former bring 101¾@102 and market. After the 1st of May the price of both these popular securities will be very nearly equalized. There are parties, of course, who hold different views of the relative worth of the two for some eighteen months or two years to come—one opinion preferring 7-30s at 2 cent interest in currency, to 6 per cent in gold; another opinion running in favor of the funding stock in gold for both domestic and foreign employment. The 5-20s five per cent gold strong at 93, and the long 6s of 1881 at 105¾@106. Nearly all the compound interest notes closed firm on Saturday at an advance of ¼. The buoyancy in the price of Government securities is favored as well from the abundance of money and low rate of interest, in the domestic market, as from the strengthened prices of 5-20s in the London market, being quoted up to 73¾@73¾, on the departure of the steamer last arrived.

—The import entries for the past week, including dry goods amount to $7,525,964, against the total entries of $4,139,502 same week last year. The export clearances of domestic produce amount to $6,367,481, against $2,114,312 same week last year. The export of specie amounts to $127,282 against $68,252 same week last year. The receipts of cotton, coastwise and by railroad, are 12,588 bales. The number of emigrant passengers arrived during the week, 3,724.

Money, Stocks and Trade in New York

MONEY AND STOCKS.

NEW YORK, April 24.—Gold—Closed firm at 1.26¾; Money still abundant. There has been a slight advance on Government Securities, and 1040s have advanced 2 per cent. since yesterday. At the Mid-day Board, the Bank of Manhattan was weak and lower on Erie, but generally steady on the balance. Petroleum and Mining Shares dull—sales: Cental, 20; McClintock, 122.

New York Cattle Market.

NEW YORK, April 24.—Prices for the week at all the markets: Beef Cattle—First quality per head 16.50@17; Fair to good 14@16 Common 12. Cows and Calves extra per head 90@140; 1st quality 80@90; Ordinary, 65@75; Common 50@60 inferior 40@50. Prime, heavy corn fed 9 @ 9½@10 Light and Middling, at 9@9¾c; Still Fed, at 9 @9c, with increased receipts. The market for Beef Cattle ruled heavy this week, and prices were fully one cent per pound lower. Cattle were generally good, and many were prime, but the market was overstocked. The speculators were too confident in their strength and so overshot their mark. Some of the best cattle sold at 16, and on other grades a trifle higher was realized. Veals are dull and heavy, and irregular; prices nominal, at 8@10c. Sheep in moderate demand, at $5.50@5.90. Hogs dull, heavy and lower, as above. Total receipts of all stocks at all the yards for this week, were as follows: Total, 6,538 Beeves, 70 Cows, 220 Veal Calves; 12,000 Sheep and Lambs; 10,183 Swine.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 24, 1866.

The produce markets were moderately active, though in the aggregate, the volume of business was small, and the transactions were principally of an unimportant character. In values there were no changes worthy of special notice.

GRAIN—Wheat is firm and in good demand but unchanged—$1.90@1.95 for Club; and $2.15@$2.30 for Red Winter; sale of 1 car Club at $1.95 delivered—equal to $1.90 here. Oats firm and scarce; we now quote prime Penna and Ohio at 68. Barley is scarce and in demand, with small lots at 90 for small lots of 166 bushels Ear from store. Sale on track of 166 bushels Ear Corn at 66. Barley is scarce and in demand, while Rye is quiet and unchanged.

MILL FEED—More active and firmer; sale of 4 tons Shipstuffs at $1.10, and 5 tons Middlings at $1.40.

FLOUR—Is in light supply and firm but unchanged. Sales in a regular way from store at $6.50@6.75 for Spring Wheat; $7@7.10¾ for half Spring and half Winter; and $10¾@11¾ for Winter Wheat brands. Rye Flour is quiet at $5.25@$5.50 per bbl. Sale of 50 bush Cornmeal at 85c per bush.

PROVISIONS—Bacon is quiet and unchanged at 13 for Shoulders; 15@15½ for Ribbed Sides; and 20@20½ for Sugar Cured Hams. Lard is held firmly at 18½@19 for prime kettle rendered. Mess Pork is quoted at $27½@28.

POTATOES—Are not coming in so freely, but the supply is largely in excess of the demand, and the market is dull and heavy, with a drooping tendency. Peach Blows are selling in a regular way from store at $1.00@$1.10 per bush, and $3.00@3.25 per bbl.

HAY—Is coming in more freely, and the market is a shade easier. Sales at scales at $23 to $26 per ton, and prime baled is selling at $24.

BUTTER—Is in fair demand but unchanged at 35 to 45 for common to choice fresh Roll, but little selling above 40.

EGGS—In good supply and very dull—sales reported at 19@20.

CHEESE—Is quiet and unchanged at 24@25 for Goshen.

DRIED FRUIT—Apples steady with sales at 13@15. Peaches scarce and firmer—quarters at 16@18, and halves at 20@22.

SEEDS—No Timothy Seed in market. Clover Seed is selling in small lots at 4¾. Flaxseed is wanted at $3¼.

SORGHUM—Is dull at 65@70 for prime.

OIL—No. 1 Lard is quoted at $1.67@1.70.

PIG LEAD—Is quoted at 9¼@9¾.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 24, 1866.

CRUDE—The transactions in Crude were larger to-day than yesterday, the sales reaching in the aggregate over seven thousand barrels, but there is no change in prices, and we continue to quote at 18@18¼, bbls returned, and in bulk, and 18@18¾ bbls included. Sale of 2300 bbls at 18¾; 1500 at 18¾; 1200 at 18; 500 at 18; 1500 (40 to 43 gravity) at 18; 900 (40 to 43 gravity) at 18¼; and 600 (40 to 43 gravity) at 18½. We are unable to assign any special cause for the apparent improvement in the demand, as it is not as brisk as last week, while local inquiry was about the same, and with the unusually large supply on sale, holders generally found it necessary to make concessions in order to effect sales. The no extra cattle declined from ½ to ¾ a cent per pound, while common and inferior, drovers allege, fell off from ¾ a cent. Extra cows sold at from 7¾ to 7¾, some few at 8, while the latter may be fairly quoted at 5¾ to 6¾. Messrs. Myers & Needy bought one of three droves for shipment to Baltimore and Messrs. Green sold bought one drove of extra cattle, averaging between 1300 and 1400 lbs, for shipment over to East Liberty to be offered for sale or shipped East. To illustrate that the market is a weak and lower one, we heard of a dealer who lost over two hundred dollars on a *single* car load.

SHEEP—The offerings of Sheep were rather light this week, and with a fair local demand, the market ruled steady, and good to prime fat mutton sheep may be fairly quoted at 9@10 cents—gross. But very few choice sheep offering, and by common consent, there is a difference of from one to one and a half cents per pound made between wooled and sheared. Hogs, we regret to say, have ruled dull and prices a shade lower. We now quote in retail way at 9 to 10 cents, gross, for light to prime heavy averages. The retail demand for pork seems to be falling off, while the demand for mutton is increasing.

TRANSACTIONS IN CATTLE—WHOLESALE.

Cunningham sold Braham 18 head of fairish Penna steers, averaging 1141, at 6¾; Hazlewood & Co. sold Braham 4 head at 6, and Myers & Needy, to same buyer, 6 head at 6¾. Myers & Needy sold Frank, in small lots, 217 head of fresh cows at from $42 to $65 per head. Cochran to Hashbrouer 70 head of good western steers, averaging 1110, at 6¾ per cwt. Reis & Co. sold to Myers & Needy 18 head fairish cattle at 6. English sold Myers & Needy 37 head of good cattle, average 1100, at 6¾. Potatoes in Detroit—Panic.

DETROIT, April 21.—The chief item of interest to-day to produce dealers is the sudden decline in potatoes. This morning a few small lots were bought at 65c for peach blows; but this afternoon there is no sale whatever at any price, owing to the sudden decline of rates in Cincinnati. The immense quantities that have recently been thrown into that market seem at length to have overcome it. To-day the information received is that it is perfectly glutted, and a sort of a panic rules on a small scale. As a result there is no demand whatever in this market. We have yet been unable to find a dealer who would pay even 50 cts per bushel.—*Tribune.*

BOATS LEAVING TO-DAY.

Delaware.....Harton.....St. Paul.

RIVER, WEATHER, ETC.

The river is still rising steadily at this point, with eight feet full in the channel by the Allegheny pier marks last evening. Telegrams from Oil City report four feet in the channel there, and rising steadily. The weather yesterday was cloudy and cool, but otherwise very pleasant.

There has not been a single transient arrival since our last report. The Leni Leoti, arrived and departed for Parkersburg, and the Grey Eagle is due here from the same point this morning. The Echo, up from Cincinnati ought to reach here to-night.

The Emma Graham left for Zanesville last evening, with a very fair freight list, and crowded with passengers. The Emma has been considered a very popular and reliable steamer, and she is generally full of passengers. After the Leni Leoti had backed out yesterday for Parkersburg, so violent was the wind and waves, that she experienced considerable difficulty in getting her head down stream. The Echo, one of the finest vantages of a stern wheel boat, as a side wheeler could have turned round with but little difficulty.

It was reported on the wharf yesterday that the Silver Cloud, which boat sunk at Brown's Island, on Sunday, has been successfully raised. We give the report as a rumor, not culpable to vouch for correctness.

The Urilda, Echo and Ida Rees, were making preparations to leave for Oil City, when we left the wharf yesterday afternoon, and will doubtless get off during the evening. With four feet at Oil City, the Allegheny may be considered in navigable condition. Business, we regret to say, however, is not as brisk on this stream as it might be.

Passengers and shippers should bear in mind that the the Delaware, Capt. R W Harton, will leave for the Upper Mississippi this evening without fail. She will be followed by the Lorena, Capt. Shuman.

The Sam Tellmon, Capt. Clark, is announced to leave for Cincinnati and Louisville forthwith.

The Argonaut No. 2 and New York are loading at St. Louis for Pittsburgh.

The Robt. Moore and Pine Grove were advertised to leave Cincinnati for Pittsburgh on Monday. The Kate Robinson arrived there on Sunday, from Parkersburg.

The Leonora No. 2, en-route from Nashville to Pittsburgh, passed Louisville on Sunday.

The St. Louis *Dispatch*, of Saturday, says:

The inactivity of the past month, which has caused such heavy losses among our boat owners has had the effect at last to reduce the rate of wages. Pilots, mates, clerks and engineers all show a disposition to work at prices to suit the times. There is no doubt of a general reduction. New Orleans pilots who have been getting $500 a month will be content with $300, and mates from $300 to $200. A corresponding decline will take place in the Missouri, which will allow many idle coats to resume business.
